CHOCOLATE

Chocolate-Covered Fruit with Nuts

Discover the perfect harmony of health and indulgence.

We start with nature's finest fruits—**sun-dried Malatya apricots** and tangy **Damson plums**—both rich in essential **vitamins** like **A, C, and E**, as well as **antioxidants, fiber,** and **potassium**. These nutrient-packed fruits support overall wellness while delivering naturally sweet and vibrant flavors.

Each apricot is delicately filled with premium **Datça almonds**, while the plums are paired with crunchy, buttery **Giresun hazelnuts**—two of Turkey's most prized nuts. We then enrobe them in luxurious **Belgian chocolate**, creating a treat that's as wholesome as it is indulgent.

The result is a truly unique and satisfying experience: a perfect balance of **fruity sweetness, nutty crunch,** and **rich, smooth chocolate**. With every bite, you'll taste the care, tradition, and quality we bring to showcase the best of Turkish nature to the world.
